'Round the Riviera

There's nothing like registration day at a new school to give a sense of utter bedlam. One would suppose enough confusion could be created in merely signing hundreds of new students into their classes, but at Riviera school, something more was added.

The witching hour was set at nine a.m. last Friday, at which time the principal and teachers arrived. The hundreds of children arrived. And to top it all off, two truckloads of workmen arrived to finish paving the school grounds. To the milling throng was added several horsemen complete with horses who utilized the school grounds for a brisk canter. And so, with several goals all being worked at simultaneously, the new school year commenced at Riviera.

The Riviera P.T.A. Board would like, through the medium of this column, to thank the mothers and Boy Scouts who helped slow the carousel to a working pace. If ever good work like theirs was needed, it was last Friday.

Apropos of starting school, the safety committee of the Riviera P.T.A. would like to ask mothers to instruct their children to walk facing traffic. Many children walking to and from school last Friday were plodding along complacently with their backs to oncoming cars. This being the country, and without sidewalks, the kids should use country precautions.

Those mothers whose children ride bikes to school can thank Judge Otto Willett, 221 Via Los Altos, for providing a real safety factor for each bike rider. The Riviera school will distribute three luminous decals to each child with a bicycle. These decals, affixed to the bike in advantageous spots, make bikes easy to see at night. Automobile drivers will have a chance to see the child no matter how dark. Neighbor Willett is providing these decals to the school for distribution with his compliments, and a tip of the hat to him for his consideration of our children's safety.

Many of our Riviera teenagers are commencing their college education this year and several are returning to college for their second year of higher education.
